# Vardhman Mahaveer Open University, Kota

## *FOREWORD*

Vardhman Mahaveer Open University (VMOU), Kota since its inception in 1987 is striving towards realizing its very objectives through its continuous accelerated progress. University system is like a living organism which continues to grow over period of time. VMOU is following the developmental path to achieve its mandated goal. Day by day, it is progressing in the field of academics as well as in research activities to cater the educational needs of the state. It is a matter of immense pleasure that VMOU is moving ahead as a top leader in the field of Open and Distance Education system across the country. In recent years, through its missionary zeal it has made significant landmarks in the field of technological interventions and student support system. It has earned a good name and fame among learners and its stake holders of higher education system of Rajasthan. By providing equity based education for the people of the state and the country, it is significantly contributing in making inclusive society. Its catalytic role in disseminating higher education for segregated or deprived group of learners has been a matter of great pride for VMOU fraternity.

The annual report has been prepared by the Registrar of VMOU which reflects the progress profile of the university. It is the reflection of panoramic description as to how the university is moving on the fast track of development to cater the needs of tertiary education of the state. It gives the chance of great contemplation in terms of all functionary mechanism of the university to lead it for greater goal. The academic year 2013-2014 has seen unprecedented growth of the university in terms of the index of access to higher education especially of odd groups, enrolment, expansion, student support services, technological interventions etc.

Mahatma Gandhi once said “Live as if you were to die tomorrow; learn as if you were to live forever.” Vardhman Mahaveer Open University has the same mission in mind and has the vision to nurture the scholars of today into the rulers of tomorrow.

It is well said that “*Success has many parents, but failure is orphan*”. The university has faced lots of odd time during its developmental phase. Many people are willing to take the credit for a successful effort, but no one is willing to take responsibility for failure. I as a new guardian along with the whole VMOU family of the University was blessed with a 26 years old child who had grown in age but was still a toddler. To script the success story of

the University was a challenging task. Sincere commitment and zealous labour bore fruits. In the academic year 2013-2014, VMOU has really made remarkable progress and created a niche for itself providing quality education. Mirroring our motto “Reach to Unreached” we have reached to the remotest corner of the state fuelling thousands of aspirations.

It is a very happy and proud moment to present in brief whatever progress we have made in the academic year 2013-2014. Apart from successfully overcoming various challenges pertaining to human resource planning, technological intervention, decreasing student’s enrolment, pending exam results, distrust among students due to operating system of university, physical infrastructure was maintained along with beautification of campus and above all manual administration was shifted to e-system. The university has added many more feathers in its cap.

A university can grow successfully only when research and teaching mesh together seamlessly- one without the other is incomplete. Therefore we have assured the development of a collaborative environment which is conducive to learning and promotion of research activities. The university with great sincerity is catering the educational needs of all the aspirants of higher learning in the most flexible manner which is based on the true philosophy of Life Long Learning and Open Distance Learning system. VMOU offers Ph.D., Post Graduation, Graduation, P.G. Diploma, Diploma and Certificate programmes in various disciplines and subjects on the basis of andragogic cannons. The university through its effective learner centred support system is significantly contributing to raise the standard of academic achievement of its enrolled learners.

The Annual Report for the academic year 2013-14 reflects the university’s developmental journey in regard to its mission and vision. Being a leader of the university, I do believe that this university has immense potential to strive for creating the new land marks in the area of higher learning. What the university has achieved till date is not enough, it has to go miles and miles to achieve its mandated goal. I do believe in optimism that the university will successfully march forward with same spirit and zeal in the coming years too. Developmental journey of a university never ends and I hope in coming days we will be the apex learner centred higher education system in the state of Rajasthan.

# VARDHMAN MAHAVEER OPEN UNIVERSITY, KOTA

## INTRODUCTION

Vardhman Mahaveer Open University (Formerly known as Kota Open University, renamed through a Gazette notification by the Government of Rajasthan on 21<sup>st</sup> September 2002) was established on July 23, 1987 as a part of the Open University network in the country (Part. 4(iv) of Kota Open University Act No.35). The New Education Policy adopted by the Parliament in 1986 recognized that the educational opportunities were both inadequate and unequal. It recognized the Open University system as a cost-effective alternative to the present conventional system of higher education. The State Government of Rajasthan took a decision by establishing Vardhman Mahaveer Open University for achieving the objectives of the New Education Policy.

In order to strengthen and achieve better co-ordination of the vast but scattered resources of distance education in the State, the Government of Rajasthan decided to transfer the Institute of Correspondence Studies, Jaipur and Udaipur to Vardhman Mahaveer Open University along with all their assets. The decision was in strict conformity with the National Policy of abandoning correspondence studies by conventional universities where Open University System had already developed to discharge distance education functions.

## OBJECTIVES AND FUNCTIONS

The university is devoted to the noble cause of democratizing higher education and providing a new and parallel mode of education to those who wish to receive higher education with the following specific objectives:

- To advance and disseminate learning and knowledge by a diversity of means, including the use of latest communication technology;
- To provide educational opportunities to larger and larger segments of population, and particularly to the disadvantaged groups such as those living in remote and rural areas including working people, housewives and other adults who wish to upgrade or acquire knowledge through studies in various fields;
- To provide an innovative system of higher education which is flexible and open with regard to methods and pace of learning, combination of courses, eligibility for enrolment, age of entry, conduct of examination with a view to promote learning and encouraging excellence in all fields of knowledge;
- To improve the higher educational system in the State by providing a non-formal channel complementary to the formal system by making wide use of texts and other teaching software developed by the University;
- To develop innovative, need based vocational courses and establish Industry/institution links for developing the society;
- To provide or arrange for training of staff required for open and distance education system;
- To strengthen and diversify the degree, diploma and certificate courses, at various educational levels to fulfil the knowledge, skill and developmental needs of the

individuals, institutions and society in general, by particularly relating the courses to the needs of employment and economic development of the State on the basis of its natural and human resources;

- To hold examinations and confer degrees, diplomas, certificates and other academic distinctions;
- To promote acquisition of knowledge in a rapidly developing and changing society and continually offer opportunities of upgrading knowledge, training and skills in the context of innovations, research and discovery in all fields of human endeavour by developing educational network with the use of modern communication media and technologies appropriate for a learning society;
- To continue the improvement of the educational system in the State by providing a non-formal channel complementary to the formal system and encouraging transfer of credits and exchange of teaching staff by making wide use of texts and other software developed by the University;
- To provide for extending continuing education through incidental and non-formal means, in various cultural forms, arts, crafts and skills of the country with a view to raising the quality and improving their availability to the people;
- To provide suitable post-graduate courses of study and promote and make provision for research and development in various fields of knowledge particularly in the field of educational technologies and distance education for an effective and efficient teaching, learning, evaluation and dissemination of knowledge;
- To provide for counselling and guidance to its students;
- To provide major parts of its resources and direct efforts in designing, developing and offering need-based and relevant vocational and technical courses forming major thrust of the University; and
- To develop working culture and achieving economies of scale through mechanization, computerization and economic and efficient administration without any loss of quality and standards in education.

## 2. HUMAN RESOURCES

Human Resources available at present with the Vardhman Mahaveer Open University are divided into three categories.

- A. Teaching staff
- B. Non-teaching staff
- C. Technical staff

### A. TEACHING STAFF

It is to be emphasized that the teachers in the open universities work under the service conditions lay down by the University Grants Commission but their teaching

responsibilities are quite different in the open education system. The teachers of the open universities do not teach in the regular classroom like conventional universities. It is to be noted that for open universities a central body known as Distance Education Council (DEC) prescribes guidelines for various activities including teacher's workload.

As per the guidelines of DEC, the workload of teachers is defined as follows:

1. Professor: Development of a new academic programme equivalent to 8 credits\*, preparation of new home assignments every year, maintenance of existing programmes.
2. Associate Professor: Development of a new academic programme equivalent to 4 credits\*, preparation of new home assignments every year, maintenance of existing programmes.
3. Assistant Professor: Development of a new academic programme equivalent to 2 credits\*, preparation of new home assignments every year, maintenance of existing programmes.

(\*Credit means study hours. One credit is equal to 30 hours of study).

### EXAMINATION WING

The examination & evaluation pattern of this university has two components: -

- 1) **Term End Examinations:** The term end examinations are held twice in a year in June & December.
- 2) **Internal Assignments:** It is an important component for continuous evaluation of the student at home. It carries 30% weight age. The Internal Assignments are sent to the students and they are required to answer the same at their home. Out of these three, two best are taken into account in the final result of the examination of the student.

**ENQUIRY/QUERY**

Student Support Cell attends to all the enquiries from prospective students, current students, past students, and general public about the role and nature of VMOU in the State of Rajasthan. A modern and updated call- centre is also available to answer the queries of the students.

**PROMOTIONAL ROLE**

Regional centres are expected to perform a variety of activities to promote Open Learning System and Distance Education Methodology such as:

- a. Generating public awareness in the regions about VMOU.
- b. Promotion of good will among the academic and administrative staff of higher learning institutions in the region.
- c. Promotion of good will among the Local Govt. authorities towards VMOU.
- d. Promotion of positive and helpful attitude towards VMOU students among the employers of different sections.
- e. Promotion of Open Education System through Television and Radio programmes by participating in regional and local seminars and by way of Preparing and publishing promotional literature in the region.

**STUDY CENTRES**

In the Open University system, Student Support Services are built on the concept of a local center known as Study Centre. Study Centres are established to offer students academic facilities & communication link with the VMOU. The activities of Study Centres are basically meant to supplement the course contents covered in the printed material. Study centre organises audio- video sessions and face to face interaction with academic counsellors. The basic objective of operational facilities is to make a student independent learner and to develop a proper attitude in learner for learning with the help of latest communication technologies used in the field of education.

**NETWORK OF STUDENT SUPPORT SERVICES OF VMOU**

Open University does not have constituent colleges or regular campuses to provide access to education. It has a unique feature in the form of Regional Services to extend student support services throughout the state. Under the effort to help students in teaching-learning process, the VMOU open study centres mainly in the academic institution of higher learning wherever possible and use the Premises on holidays and in off hours. Local qualified talent is being involved in imparting education on part time basis with the help of Self –Instructional Material provided to each student by VMOU. This makes the University a cost effective organization. The work of the part-time staff at study centres is supervised and monitored by Director, Regional Centre. At Present there are six Regional Centres functioning in the state. The entire process of the student support services is planned, supervised and monitored by Director (Regional Services) at headquarters. The provision of student support services is a peculiarity of Open University.

## **ROLE OF A COORDINATOR**

We thus see that each study centre is managed by a coordinator whose role is very crucial for the smooth functioning of the study centre. He is vital link between the student, the counsellors, local public, the Regional Centres and the head quarters. In this way he is the Public Relations Officers of the University and is responsible for all the activities of the centres. There are certain duties which the coordinator has to perform after assumption of the charge:

1. The Coordinator has to approach the head of the institution where the study centre is located and take possession of the non-teaching staff of the study centre, check the file of all correspondence from the University, check the stock register and the cash book. If he is dissatisfied with their work he can suggest a change, but that should not be too frequent.
2. The library facilities should be properly maintained and extended to the students coming to the study centre. The course material received from the University should be maintained properly. The record of the material should be maintained in a separate register. The Coordinator ensures that the booklets borrowed by the counsellors are duly returned after the completion of counselling sessions. Almost every year we face the problem of shortage of study materials at the SCs because the booklets once borrowed by the counsellor are not returned.
3. The Coordinator may pass upon the students on their regular attendance and submission of assignments on time. He may advise the counsellors to familiarize the students with procedure of attempting and submitting the assignments.
4. The feedback on the progress, problems of the students should be conveyed to the Regional Director.
5. Each study center has been provided with Audio/Video equipments and several cassettes related to particular programme, Audio/Video sessions should be integrated with face-to-face counselling sessions. The Coordinator should see it that these equipments are kept in proper working order.
6. Stock Register should be maintained in regard to property of the SC furniture, cassette recorder, VCR/VCP, TV, audio-video cassettes and last but not the least books and other print material received from the university. Physical verification at regular intervals will be an effective check on any attempt at misuse.
7. The Coordinator is responsible for all the financial matters pertaining to the study centre. Proper record of the counselling sessions with attendance sheets duly signed by the students themselves the counsellor concerned and counter signed by the coordinator should be maintained and clipped with the bills to be sent to the Regional Centre. As soon as the counselling of a particular course is over, the bills should be forwarded to the Director, Regional Centre. The study centre should not unduly retain the bills because the delay in payments discourages the counsellors.

The Coordinator must ensure that the contingency funds received from the university are utilized for the specified purposes and the accounts are maintained on prescribed forms in accordance with the prescribed procedure. It is suggested that the recoupment bills of contingency expenses be submitted regularly. The financial account should be submitted before the close of every financial year for adjustment. It has been noticed that in spite of repeated reminders some of the SCs fail to send the adjustment bills on time in the absence of which it is not possible to sanction fresh contingency. This causes great inconvenience to the

SCs themselves. Any bills submitted after the close of the financial year will not be entertained.

## **Research**

Vardhman Mahaveer Open University, Kota initiated Research Degree Programme leading to Ph.D. in 1990 by an ordinance promulgated by the H.E. the Governor and Chancellor, Vardhman Mahaveer Open University, Kota. It has enhanced the possibilities of Research Degree through distance mode of higher education; The University has devised an efficient mode of conducting the Research Degree Programme. At the same time it has also evolved a rigorous method for ensuring quality of research work for Ph.D. degree. In fact this has been a major departure for a newly establishment open university to conduct research through UGC regulation 2009. This has become a pioneer successful experiment

which can be followed by other institutions of open learning. Looking to the need of hour the distance mode of education is expanding rapidly.

The university is providing Research Degree in the faculties of Arts, Humanities, Social Science, Science, Law, Commerce and Management, Technical Education and Education. This is worth mentioning that along with discipline based research interdisciplinary researches have been encouraged for the benefit of the society. Applied and action based researches are also being promoted.

## **STUDENT AFFAIR CELL**

Student Affair Cell (SAC) at Vardhman Mahaveer Open University was established primarily with the objective of giving a focussed attention to student's problems. There are two sections of students that have been approaching SAC for help:-

- a. Students enrolled in various programmes of the university.
- b. Prospective students

Enrolled students approach for various kinds of clarifications/help during their studentship. The help required pertains to study material, assignments examination schedule, mark sheets/degrees etc. SAC has been promptly and successfully extending all possible help. Prospective students write letters enquiring about various aspects of our functioning. Quite frequently they enquire about various academic programmes and their details. SAC has been doing this job successfully at its best.

Besides students problems SAC has been providing a support to Regional Centres, Study Centres and Information Centres. The published material is distributed by RCs located all over Rajasthan.

The SAC is working under the charge of Director, Regional Services Devison, Vardhman Mahaveer Open University, Kota, in an independent building provided to it.

## **STRIDE**

### **Staff Training and Research Institute in Distance Education**

#### **Background**

Vardhman Mahaveer Open University (erstwhile Kota Open University) was established in 1987 by an Ordinance now an Act of Rajasthan State Assembly. Since its inception VMOU has given high priority to human resource development. The university earlier deputed its staff for training at other institutions of repute. It was then decided to establish a separate body at the headquarter to cater to the needs of training to the staff of the university and also to work as a coordinating agency with the other training institutions in the country and

abroad. Accordingly STRIDE was established in Dec. 1999 as an independent unit under the control of the Board of the Management of VMOU.

### **Objectives:**

#### **The objectives of the VMOU STRIDE are as follows:**

- To identify the needs of different target groups involved in open/distance education.
- To prepare up-to-date training materials courses and expertise and resource base and make such resources available whenever needed.
- To develop training strategies and training material to meet the various needs of different types of individuals and distance teaching/training institutions.
- To organize and conduct training and staff development activities for the identified target groups and institutions, and
- To get involved in and promote research in Open and Distance education at the Fundamental, experimental and application levels in order to constantly enrich the training programmes and management process to meet the challenges of the expanding educational environment.

### **Activities:**

STRIDE organizes training programme for academic and non-academic staff working in the university and other distance and open education institutions in India.

- Develop training packages and other resource material for various categories of functionaries working in the distance education system.
- Conduct and support research in distance and open education for improving the quality of distance education and for systems development.

### **Training:**

STRIDE conducts short-term training programmes for various types and varieties of academic, technical, professional and non-academic staff of the university and the staff of the other Open Universities in the country. These programmes are offered at headquarter and at the Regional Centres of the university with the help of resource persons and training packages developed by the University

The focus of the training programme is on the following areas:

- ❖ Curriculum design and development
- ❖ Development of Self Learning Material (SLMs)
- ❖ Assessment and Evaluation Techniques
- ❖ Academic Counseling
- ❖ Learners Support
- ❖ Media in distance Education
- ❖ Information technology in Distance Education
- ❖ Management of Distance and Open Education Institution

### **Research:**

STRIDE undertakes research and development and programme evaluation activities on various functional areas of distance education for systems development and improving the effectiveness of staff development programmes and also aims at improving the overall functioning of the university.

6.	Pamphlets	1117000
7.	Admission / other forms of examination department	83000
8.	Annual report (Two Years)	300

This year all the study material was digitalized in Unicode which was helpful in uploading all the material on the university website. Total expenditure occurred was Rs. 24,62,560/- for digitization of all study material of Hindi medium into Unicode in year 2013-14.

**Distribution Section:-**

Distribution Section of the department is responsible for dispatch of study material to the registered students of the University. All the printed material was successfully dispatched to the enrolled students through courier services and postal service. Even different universities are also provided our university study material for their usage. In the year 2013-14 through selling our study material Rs 2,11,15,674/- has been collected.

**EDUCATIONAL MEDIA PRODUCTION CENTRE  
(EMPC)**

Vardhman Mahaveer Open University is presently running many academic, professional and vocational programmes pertaining to different disciplines. During the year 1998, university has established Educational Media Production Centre (EMPC) unit in the university with view to develop its audio and video content relating to the universities different academic programmes. The EMPC unit was set up with the help of IGNOU - EMPC team.

The EMPC unit could not be made fully operation because of non-availability of technical staff related to media production in the university. Audio / video component is an important component in the education through distance mode. Therefore, it is submitted that the following positions may be created and filled up in

the university so that the component of audio and video may also be supplemented with the print material.

The following activities were performed during the period

1. The university online admission software registered online admission for about 40000 students in the period. The software was also upgraded to have Book Dispatch system and Entrance Management System for B.Ed and M.Ed Entrance which enabled the university to have online Applications for B.Ed and M.Ed Entrance this new software registered close to 7000 applications.
2. Counselling through Mobile and AIR: The Department facilitate RSD for counselling through AIR via a phone in programme during July 2013 Admission cycle which had a record average of attending 18-20 calls per episode(30 mins) the programme was relayed by all the Radio stations of AIR in Rajasthan.
3. Video Recording: A total of 300+ Video recordings were done in this period out of which 80 recording were edited and made online on <http://vmou.ac.in/youtube>, the department also recorded the university's convocation and the same was made Live on the day of convocation with edited recording of almost 2 hrs is available on YouTube Channel of the University. Promotional short video for B.Ed, M.Ed and Department of Education were also made.
4. E - Filling: The University adopted the file tracking software of NIC and the same is functional and all the files are being tracked on the system.
5. The department was also engaged in designing various posters and designs for various occasion in the university, various new modifications were done on the VMOU's Website which are worth mentioning. Entire network of VMOU was reorganized with all departments not networked with Optic Fibre Backbone.
6. The centralized server was kept in the EMPC building from where the overall control of networking (LAN) work of the university is monitored.
7. The work related to video conferencing as set up by VMOU was established in the computer room of EMPC building.
